

Proposed G.O. Bond Measure for Street Repair

EUGENE CITY COUNCIL

WORK SESSION

JULY 13, 2022

1

1

Direction from previous work session:

Council directed staff to develop a resolution for: \$61.2 million GO bond measure to fund capital pavement preservation, walking projects, biking projects, safety projects, and street tree projects. Dedicating \$3 million of those bond funds per year (\$15 million) to walking, biking, safety, and street tree projects, and the remaining \$46.2 million to capital pavement preservation and bond issuance costs.

2

2

Street pavement preservation list

- 43 named streets
- Updated Council Ward distribution
- Added estimated inflated costs for projects. Note, this is a high-level estimate and is dependent on actual needed work and costs at the time of the project.

3

3

Walking, Biking, Safety and Street Tree Projects

Resolution, Recital J, includes a distribution of the \$15 million funding (\$3 million per year):

- Walking projects - \$5 million
- Biking projects - \$3 million
- Safety projects - \$3 million
- Street tree projects - \$2 million
- \$2 million would be left unallocated to be used opportunistically for any of the four project types.

4

4

Walking, Biking, Safety and Street Tree Projects

Resolution, Recital H includes project selection criteria and process:

- Geographic distribution and equity of infrastructure
- Public outreach
- Heat island mapping (street trees)
- Facility condition
- Triple bottom line considerations
- Plans – TSP, Vision Zero Action Plan, Climate Action Plan 2.0

Resolution, Recital I includes development of a project list based on the selection criteria and process. Project list to be published for public feedback and guidance from three identified committees and commissions.
