CAP2.0 Proposals

8

8

Home Energy Score and Commercial Benchmarking

- These programs require disclosure of energy performance of a building.
- Annual Metric Tons CO_2e Reduction: 10,000

Home Energy Score

Needs

- ❑ More Research
- ✓ Policy Decision or Direction
- ✓ Funding

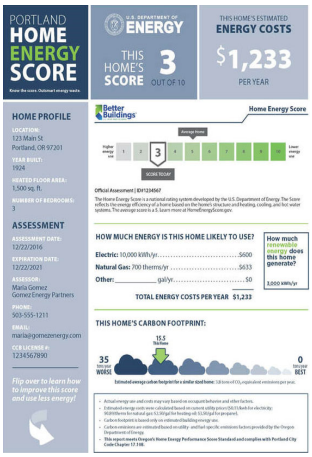
Staff will bring this back as part of the climate funding conversation scheduled for Dec 2021. Anticipated cost: $75,000/annually.

Commercial Benchmarking

Needs

- ✓ More Research
- ✓ Policy Decision or Direction
- ❑ Funding

Research anticipated to be completed in October 2021.



9

Energy Efficiency: Support Incentives and Explore Regulatory Options

- Support existing energy efficiency programs and explore ways to require more energy efficiency building standards.
- Annual Metric Tons CO_2e Reduction: Varies

- Needs:
  - ✓ More Research
  - ✓ Policy Decision or Direction
  - ✓ Funding

Staff anticipate finalizing the report for CAP2.0 Action B2 by the Nov 2021 work session. Anticipated recommendations to move this action forward include providing additional funding.
