ISSUE STATEMENT

In honor of Independence Day on July 4, representatives of Eugene's four Sister City Committees will read the Declaration of Independence and lead the Pledge of Allegiance to the Flag.

BACKGROUND

The City Council voted at its June 27, 2011, work session to begin formal council meetings with a voluntary recitation of the Pledge of Allegiance to the Flag at those meetings closest to the following holidays: Memorial Day, Veterans Day, Flag Day, and the Fourth of July. In addition, the council voted to begin a practice of reading the Declaration of Independence and/or from the Constitution of the United States at the beginning of its meeting closest to the Fourth of July.

According to the United States Code, Title 4 (U.S. Flag Code), the Pledge "...should be rendered by standing at attention and facing the flag with the right hand over the heart. When not in uniform, men should remove any non-religious headwear with their right hand and hold it at the left shoulder, the hand being over the heart. Persons in uniform should remain silent, face the flag, and render the military salute."

The Pledge is as follows: *"I pledge allegiance to the Flag of the United States of America, and to the Republic for which it stands, one Nation under God, indivisible, with liberty and justice for all."*

- Concerns raised about increasing SDCs before a housing package is adopted.
- Questions asked about the difference in SDCs when new development is created and new roads are needed vs. where roads already exist.
- Consider the impact on the already approved Transportation System Plan projects if the Transportation SDCs were not raised.

Council Discussion

- Increasing transportation SDCs is just one contributing factor to other increases and charges that are preventing thousands of people from buying a new home.
- Questions asked about what would need to happen to result in a zero dollar increase in SDCs, and which projects in the TSP would need to be taken out to achieve that.
- The proposal includes mitigating or waiving SDCs at the affordable housing level to avoid pricing people out of the housing market. It is important to consider where that affordable level is.
- All levels of housing are interconnected and their availability affects each other.

EUGENE CITY COUNCIL AGENDA ITEM SUMMARY

Action: Appointments to Boards, Commissions and Committees

Meeting Date: July 9, 2018
Department: City Manager's Office
www.eugene-or.gov

Agenda Item Number: 4
Staff Contact: Cas Casados
Contact Telephone Number: 541-682-8497

ISSUE STATEMENT

This is an action item to appoint members to the Budget Committee, Civilian Review Board, Historic Review Board, Human Rights Commission, Lane Regional Air Protection Agency, Toxics Board and Whilamut Natural Area Citizen Planning Committee.

BACKGROUND

Each year, the council makes appointments to boards, committees and commissions. Chapter 2 of the Eugene Code addresses standing committees to the City Council and the appointment process for each body. For most standing committees created in the code, council is the appointing authority.

The annual recruitment for boards, committees and commissions was initiated on January 31, 2018, and concluded March 31, 2018. The recruitment was publicized on the internet, in newspapers, through flyers, at City offices, and at City- and neighborhood-related meetings and events.

Members of the council were provided with copies of the applications to all council-nominated advisory groups. Applicants who received five or more votes to be appointed or reappointed, were automatically placed in nomination for formal appointment. Those who received at least four votes in any category were invited for an interview. Interviews for all committees were held on May 24, 2018.

RELATED CITY POLICIES

The boards, committees and commissions serve as advisory bodies to the City Council in the development of various City policies.

COUNCIL OPTIONS

1. Appoint applicants who have been nominated;
2. Appoint other applicants from the pool, or
3. Seek additional candidates for these positions.

CITY MANAGER'S RECOMMENDATION

The City Manager has no recommendation on this item; the appointments are made by the council.

SUGGESTED MOTIONS

Budget Committee

At the time of recruitment, there were three vacancies on the Budget Committee. Since that time, Garrett Dunlavey resigned his position, creating an additional vacancy for a one-year unexpired term. Two incumbent-candidates received the votes necessary in the initial balloting process to be nominated for reappointment: Shaun Londahl and Scott Nowicki. Council chose to interview five candidates and there are two remaining positions to fill. None of the candidates interviewed received enough votes to be included in the motions for appointment below.

Move to reappoint Shaun Londahl to the Budget Committee for a three-year term beginning July 9, 2018, and ending June 30, 2021.

Move to reappoint Scott Nowicki to the Budget Committee for a three-year term beginning July 9, 2018, and ending June 30, 2021.

Civilian Review Board

There are three vacancies on the Civilian Review Board; one incumbent, Richard Roseta, applied and received enough votes in the initial balloting process to be nominated for reappointment. The council chose to interview four applicants for the remaining two positions and two of those candidates received five or more votes for nomination: Lindsay Foltz and Christopher Hayes.

Move to reappoint Richard Roseta to the Civilian Review Board, for a three-year term beginning July 9, 2018, and ending June 30, 2021.

Historic Review Board

There are three vacancies on the Historic Review Board. Twelve people applied. Mayor Lucy Vinis and Planning Commission Chair, John Barofsky, interviewed applicants on May 7 and 8, 2018. They recommend Daniel Lombardi, Sarah Shmigelsky, and Richard Steers for appointment.

Move to reappoint Sarah Shmigelsky to the Historic Review Board for a three-year term beginning July 9, 2018, and ending June 30, 2021.

Human Rights Commission

There are three vacancies on the Human Rights Commission. One incumbent, Bonnie Souza, applied and received enough votes in the initial balloting process to be nominated for reappointment. From the pool of new applicants, the council chose to interview four people. No interviewee received enough votes to be included in the draft motion. The two remaining vacancies are both for three-year terms.

Move to reappoint Bonnie Souza to the Human Rights Commission for a three-year term beginning July 9, 2018, and ending June 30, 2021.

Toxics Board

There are three vacancies on the Toxics Board: two advocacy positions and one industry position. The incumbent, Evan Shenkin, applied and received enough votes in the initial balloting process to be nominated for reappointment to an advocacy position. There were two new applicants this year, one for an advocacy position and the other for an industry position. Both were interviewed by council and received enough votes to be nominated for appointment.

As an historian, a teacher, a parent, and a relatively new member of the Eugene community, I hope to bring a diverse and fresh perspective to the future of Eugene. Through my work on the board, I hope to enjoy the benefits of giving back to my community while helping to make important and vital decisions that will impact members of the Eugene community for years to come. Finally, being new to Eugene, I am looking to set strong roots in a community that my family plans to call home for years to come. I believe this type of community involvement will accomplish those goals.

I grew up on the East coast where I fell in love with studying history and learning about antiques. I love to spend my time traveling and enjoying other cultures and people. I now have a family with small children and spend my time working in education, renovating real estate, and dreaming of how to make Eugene an even better place than it is now.

Contribution

I'm feeling myself evolve and am eager to plug in my personal talents and interests into the community in meaningful ways. As someone who once came to Eugene on whim to "see what it was like" and then fell in love with all that the community has to offer and... stayed, I've come full circle in Eugene and want to contribute to our fair city. I am excited by public policy and city issues and and itching to learn all about our city's special commissions and participate. I now finally find myself in the fortunate position to be available to volunteer more hours, attend more neighborhood meetings, city meetings, and contribute whatever I can. My intent is to first learn all I can from whoever I can by delving in feet first. I can't wait. Please pick me!

Personal Interest

I have a broad interest in human rights even though much of my experiences have involved children's and Women's rights. I have a personal interest in homelessness, poverty, mental health and minority issues.

Contribution

I want to become a commission member, because I would like to actively engage with my community and be a part of maintaining and raising awareness for Human rights in the City of Eugene.

1 Have you been a frequent visitor to the Whilamut Natural Area? What do you most enjoy about the park?

I cycle and go for walks with my family at the Whilamut Natural Area, attend events at Alton Baker, and bird watch with my daughter who is fond of the occasional pheasants we see. My daughter likes to fish at Alton Baker and we walk our dog there quite often as well.

2 The Citizen Planning Committee (CPC) meets as a full committee on a quarterly basis and all members are expected to attend. There are additional opportunities for involvement which include subcommittees which focus on specific park issues and volunteer work parties in the park. Would you be able or willing to participate in these additional activities?

I would enjoy being a part of subcommittees.

3 Describe your top three interest areas or issues regarding the Whilamut Natural Area of Alton Baker Park.

Public safety, wildlife conservation, and keeping the area clean.

4 The CPC works with the City of Eugene, Willamalane Park and Recreation District, and other organizations. What specific strengths and attributes can you contribute to the CPC?

I currently work for the City, have a strong sense of responsibility to my community, work well on teams, communicate thoughtfully and am accustomed to working on group projects.

5 Please cite an example in which a wide range of opinions surfaced within a group to which you belonged, and your role in bringing divergent sides toward resolution.

When I worked at the YWCA of greater Portland I worked with senior staff, managers, and community partners on a project to house the homeless during the day at our family shelter. Everyone had differing passionate opinions about the project. My role was not to force consensus, but to actively listen, remind everyone of the common goal we had, and find areas where we agreed to help the project move forward. The divergent opinions helped to ensure the project ran smoothly and allowed for more of an all hands on deck approach.

Personal Interest

My personal interests revolve around understanding our human place in the world. I study/practice natural history, history, ethnobotany and TEK, communication, and social liberation and political movements. I also volunteer with Indigenous solidarity activities and am strongly committed to backing Native leadership. I am studying Chinuk jargon as part of this interest. I am looking for a concrete way to serve my community as part of a committed group from diverse backgrounds, while working towards increasing community connection and investment in nature.

Contribution

I will bring my knowledge and skill in teaching, botany, and ecology, as well as my personable communication, to my desire to increase community involvement with the park. I am interested in involving people long term in land stewardship and working on new models for restoration and management projects that increase community commitment. I would like to focus on stewarding the native food and medicine plants in particular, within the larger ecosystem restoration work, and involve the community in learning about and taking care of these plants and special place. Ethnobotanical (or eco-cultural) restoration is a model that believes that restoration is never truly finished, but necessitates including the realm of human culture within the management of the ecosystem. I would like to begin conversations about what this kind of model could look like within the park. I have the desire to organize and facilitate a long term eco-cultural community stewardship project, while cooperating with current management systems.

1 Have you been a frequent visitor to the Whilamut Natural Area? What do you most enjoy about the park?

I have visited this area since childhood, but not very much in recent years. I love the connection to the river, the old hazelnuts, and the open meadows there. I would visit much more frequently and intentionally if I was a part of this committee.

2 The Citizen Planning Committee (CPC) meets as a full committee on a quarterly basis and all members are expected to attend. Yes I am expecting to be involved in work parties and other activities in addition to meetings.

3 Describe your top three interest areas or issues regarding the Whilamut Natural Area of Alton Baker Park.

My first interest is community building: bringing people together from a broad range of backgrounds to connect with nature, learn, and work together.

Secondly, I am interested in habitat restoration and management. I would like to help coordinate projects, vision new models for approaching the work, and monitor the progress of what has been done.

Thirdly, I am inspired by the work that has already been done around Indigenous solidarity with the Kalapuya, as evidenced by the Talking Stones. I am interested in continuing this work of collaboration with Native people to support goals within their community and increasing access to using the park in ways that honor their culture.

4 The CPC works with the City of Eugene, Willamalane Park and Recreation District, and other organizations. What specific strengths and attributes can you contribute to the CPC?

I come with strong communication skills and an ability to connect with a range of different people. I have experience working with individuals and groups in understanding and interpreting emotionally complex dynamics, and resolving conflicts. I am organized and have good follow through on my commitments. I am an excellent botanist and teacher, with an ability to communicate my vision and inspire people to rally around causes that are important to me. I bring a zest for life and a genuine desire to create community around taking care of our natural spaces.

5 Please cite an example in which a wide range of opinions surfaced within a group to which you belonged, and your role in bringing divergent sides toward resolution.

When I was living and working in a collectively organized forest restoration camp, we had a conflict come up about how we made decisions and how to approach leadership. Since I was in a leadership role in that group, I facilitated meetings and talked with people on the side to understand everyone's point of view and propose a compromise. I focused on the relationships with individual people and finding a way to continue working together.

Personal Interest

In the next several years, Oregon is going to experience significant population growth. We all know this, and now is the time to plan for it. One issue I have become very interested in is how we plan for this growth and ensure there is affordable and sufficient housing in our community. As an educator I understand the impact housing insecurity can have on students. In the last year, I have been working to educate myself on this issue and have attended multiple community forums on the housing challenges facing Eugene.

I am also interested in how we plan for our city's growth, and continue to develop the public spaces that make this a wonderful place to live. I'm interested in ideas for developing green spaces and public spaces that not only increase the quality of life in Eugene, but also help the city to develop economically. I am excited about Civic Stadium as an opportunity for promoting healthy life styles in our community, and I think planning for development along the river is incredibly important.

In the last year, I have also become more familiar with Eugene's Vision Zero work and find this to be a very important effort as well. As our community grows, designing a city that thinks about the impact of cars is necessary, and we need to ensure that our streets are safe for everyone. Over the years, I have worked in a variety of schools. When kids and families can walk or bike safely to school, it not only promotes a healthy lifestyle, it also promotes a sense of community. Vision Zero is an important project for the City of Eugene.

Finally, I am also deeply committed to making sure that

Contribution

As an educator, I have a deep commitment to the children, families, and community I work with, and as someone who has worked with multiple community organizations here in Eugene, I understand how essential it is for us to come together over a vision for our city. I believe it is important that our city thinks carefully about its growth and development, so that our community provides the resources and opportunities needed for all families and their children to be successful. As a teacher for over 25 years, I think I can provide valuable insights into thinking about families and children. I know there are not simple solutions to the challenges that face our community, but I am not only passionate about the opportunity for public service and the hard work that accompanies it, but really enjoy burying myself in the policy, details, & information required to find solutions and tackle challenges. I am collaborative and enjoy working with equally dedicated individuals for the common good and would relish the opportunity to be part of a city commission or board.

the public institutions represented by government and social services are equitable and inclusive. During the time I have lived in Eugene, I have had the opportunity to work with many community organizations and build relationships with a diverse cross section of our city. I would want to ensure that all aspects of our community have the same opportunity to be heard and have their voice included in thinking about Eugene's future.

1 Have you been a frequent visitor to the Whilamut Natural Area? What do you most enjoy about the park?

Yes, over the 25 or so years I have lived in Eugene I have been a frequent visitor to the Whilamut Natural Area. It is one of my favorite biking routes and I greatly appreciate the variety of habitats that include open areas, the river and the forested areas. Sometimes, I also walk in this area and as a birder enjoy this aspect of the natural area. I am also an educator and myself and my students have benefitted from the programs provided by Nearby Nature. It has been a wonderful experience for my students to learn about the natural history of our community, to have access to this natural area, and to participate in the great programs offered by Nearby Nature.

2 The Citizen Planning Committee (CPC) meets as a full committee on a quarterly basis and all members are expected to attend. There are additional opportunities for involvement which include subcommittees which focus on specific park issues and volunteer work parties in the park. Would you be able or willing to participate in these additional activities?

I work really hard to honor my commitments and would prioritize any quarterly meetings. I would also be interested in working with subcommittee opportunities or activities. I see these opportunities as a way to build a stronger connection to the natural area, and a great chance to build relationships with other community members interested in the Whilamut Natural Area.

3 Describe your top three interest areas or issues regarding the Whilamut Natural Area of Alton Baker Park.

As our community and city grows, I believe it is very important to intentionally plan for the conservation of our natural spaces and to think about how to continue making these areas accessible to as much of the community as possible. There will be many pressures on our green spaces as both Springfield and Eugene grow, so I think it is important that we have such avenues as the CPC to help in protecting these spaces, as well as planning for their care.

I am also interested in supporting the continuation of Nearby Nature as an avenue for nature education for young people. As an educator, I have experienced directly how advantageous this program is. Nearby Nature provides an important opportunity for our youth to learn about and have access to the nature environment in our local community. I think we need to ensure the viability of these types of programs.

Additionally, I think the work the Whilmut Natural Area has done to provide an appreciation of the Kalapuya culture is extremely important. I am interested in seeing the efforts to recognize the original inhabitants of this area continued and expanded. It is also essential to continue to consult with the Kalapuya community and its elders as this work is continued.

4 The CPC works with the City of Eugene, Willamalane Park and Recreation District, and other organizations. What specific strengths and attributes can you contribute to thre CPC?

As an educator, I can bring skills to working with the CPC that involve understanding how to advocate for families and children. I think the use of our public spaces needs to take this part of our community in to consideration as part of the planning process. I also believe there is a role for the CPC to provide educational resources to the community and I would also have many skills to offer in this area. Additionally, even though I have been working as an elementary educator for over 25 years, my undergraduate degree is in Environmental Studies. I have an ecological sciences and wildlife biology background that informs my thinking as well. I am collaborative and enjoy working with equally dedicated individuals for the common good and would relish the opportunity to be part of a city commission or board.

I have been working with Lane County and Trillium's Take Action for Equity events as a table facilitator. The two most recent events that I helped to facilitate a wide range of opinions and perspectives about was: 1) how systematic bias in services strengthens white nationalism and 2) confronting health inequities in Lane County based on racial inequality. I have also worked with the Eugene Education Association and Oregon Education Association to facilitate town hall meetings in which we bring students and community leaders together to talk about institutional racism in the education system.

ISSUE STATEMENT

This is an opportunity for the City Council to consider and take action on a proposed change to Eugene City Code 4.190, Consumption or Possession in Unlicensed Public Spaces Prohibited.

BACKGROUND

City Code 4.190 (4) language provides for consumption of alcoholic beverages for a period commencing four hours in advance of scheduled collegiate football games at Autzen Stadium. The University of Oregon is requesting a code change to allow alcohol consumption from four to six hours (but not earlier than 7:00 a.m.) in advance of game kick-off time to align with proposed expansion of parking hours.

If approved, the UO intends to monitor the impact of this change at athletic department weekly event meetings. These meetings include representatives from the Eugene Police Department, University of Oregon Police Department, Crowd Management Services, and UO Student Life. The UO will also evaluate the impacts of this change on an annual basis following each football season. The UO intends to hire security to manage the additional two hours of access to the parking area.

A public hearing was held on June 18, at which three people testified in support of the ordinance.

EUGENE CITY COUNCIL AGENDA ITEM SUMMARY

Work Session: An Ordinance Concerning the Prohibition of Smoking on Public Right-of-way Adjacent to Opted-In Properties; the Prohibition of Smoking Within the Downtown Core and Allowing for Properties to Opt-Out; and Amending Section 6.230 of the Eugene Code, 1971.

Meeting Date: July 9, 2018
Department: Central Services
www.eugene-or.gov

Agenda Item Number: 7
Staff Contact: Becky DeWitt
Contact Telephone Number: 541-682-5616

ISSUE STATEMENT

This work session is an opportunity for the Eugene City Council to discuss a proposed ordinance to expand smoke-free areas in the City of Eugene. The purpose of the ordinance is to promote community health by reducing the exposure and impacts of secondhand smoke and cigarette litter.

BACKGROUND

Tobacco is the leading cause of preventable death in the United States, Oregon, and Lane County. Tobacco-related diseases kill approximately 7,000 Oregonians each year and nearly 700 people a year in Lane County alone. An additional 600 deaths are caused by secondhand smoke each year across the state. Medical expenses and lost wages due to tobacco-related disease and early death cost Lane County over \$260 million a year, or \$1,800 per household. Surveys indicate that 75 percent of Lane County residents believe it is important to be protected from secondhand smoke outdoors.

Preventing and reducing the impact of tobacco in Lane County is one of the objectives of the local Community Health Improvement Plan. Evidence shows that increasing tobacco and smoke-free environments is one of the most effective ways to reduce tobacco use and prevent secondhand smoke exposure.

Due to the significant cost of tobacco use to society and individuals there is an increasing trend for businesses and governments to adopt policies regulating smoking or tobacco use in outdoor public spaces nationally, and in Oregon. For instance, Salem, Oregon, passed an ordinance that allows smoking to be prohibited on sidewalks and landscape strips within public right-of-ways that are adjacent to properties where smoking is prohibited as a policy of the property owner. Several of our regional partners, including the University of Oregon, Peace Health, and Lane Transit District, have sought the authority to prohibit smoking in the right-of-ways adjacent to their smoke-free properties. There are also a number of City-owned smoke-free properties where this would be beneficial.

Cities including Ashland, Oregon, McMinnville, Oregon, Boulder, Colorado, Fort Collins, Colorado, and Boise, Idaho, have passed ordinances creating smoke-free outdoor areas in their city centers and downtowns. In 2016, all city of Eugene parks and open spaces became smoke-free. In January, 2017, Lane County acted to make all 73 county parks and open spaces smoke- and tobacco-free.

Current City ordinances do not allow smoking within 10 feet of any public doorway or within 25 feet of the entrance to government buildings throughout Eugene. While these ordinances provide some level of protection from secondhand smoke indoors, they do not address outdoor smoking in high use pedestrian areas, such as sidewalks, alleys and public spaces.

Staff has reviewed this item through a triple bottom line lens and finds that supporting smoke-free initiatives is beneficial from an environmental health, social equity, and economic prosperity perspective. Positive environmental impacts include cleaner air and reduced litter. In addition, research has shown that groups with lower socio-economic resources experience disproportionate impacts of smoking to both their health and economic prosperity. Costs of treating smoking-related illnesses continue to be significant in both Lane County and nationwide.

In order to preserve council's option to take action on this item prior to summer break, the attached draft ordinance (Attachment A) includes the following provisions:

- Expand smoke-free areas to include the public spaces—sidewalks, alleys, and plazas—within the defined area of the downtown core (Ordinance Exhibit A). This ordinance includes an option for properties within the downtown core to “Opt-Out” and create designated smoking areas at any time.
- This ordinance also includes an “Opt-In” option for smoke-free properties outside of the downtown core to create smoke-free areas on the public right-of-way adjacent to their properties.

Following consideration of these options, council can move forward with a July 16 public hearing on the ordinance as written and, if Council chooses, amend the ordinance at the time of Council action on July 23. Potential outcomes on this topic include adopting an ordinance that is opt-in city-wide and opt-out for the downtown core, opt-in city-wide with no special downtown core provision, or taking no action.
