CAP2.0 Motions Approved in July 2020

15

CAP2.0 Motions Approved in July 2020

Motion 1: Bring back to Council the cost and timeline to complete a high-level analysis of all the Community and Equity Panel ideas for potential action included in the CAP2.0 in the fall, considering estimated costs per ton of emissions reductions, co-benefits, feasibility and equity impacts.

Motion 2: Bring back a process and timeline to create a CAP2.0 Implementation Plan in the fall, with special consideration to the ideas brought forward by the Sustainability Commission.

16

High Level Analysis of 113 Equity Panel Recommendations and Community Ideas

Actions Already in the CAP2.0

Ideas already being implemented as part of the CAP2.0

Partner Led Projects – Ideas led by partners or other entities

Ideas that are a better fit for other actors (business/industry, other community partners, State/Federal Government, etc.)

Other City-Led Ideas – Other Ideas for City-Led Implementation

Remaining ideas that the City would be the best choice to lead. Information would include ghg or resiliency impacts, equity impacts, and other information when possible.

Top 10 – Top 10 Ideas for City-Led Implementation

Top 10 ideas that emerge from climate (ghg or resiliency) and equity impact scoring.
