Date: 6/27/2022

To: Eugene Mayor/council

From: Rich Locke

Subject: Praise for EPD, Selective parking enforcement

Praise

I would like to praise Chief Skinner for the good job of stopping our friends dressed black from duplicating the 2020 rioting and property destruction here in Eugene last Friday evening. It shows that we learned that if you let it start, it will continue until they are tired of doing it. It was very refreshing to see the swift action by our local law enforcement agencies working together to stop it immediately. I was not surprised when there was no reported arrests or incidents Saturday.

Selective parking enforcement

I have been reporting on street RV camping to you all for over a year now and find that our parking enforcement is selective.

My report log shows that many are moved but some escape the movement process. why?

My observations are that staff parking management, not enforcement officers are overlooking looking these RVs for some reason. Why are most being moved and a few not? I communicate with other businesses that have these selected campers in front of their businesses and they have filed reports also and no action. So, we have multiple reports filed from different businesses throughout the area about the same RV, yet they are still there. Most of these folks are highly disrespectful of business owners, and dumping their waste water on the streets.

When are we going to hold the "Serial Willful Violators" accountable?

I have one Request: Can staff IT provide a comment box in the "Report a Parking Problem" Page,
