Eugene City Council

# Memorandum

Date: September 13, 2022

To: Mayor Vinis and City Council

From: Sara McKinney, 541-682-8497

Subject: Testimony Submitted

Attached is testimony submitted at the Public Forum on September 12, 2022. A copy of this material is also included with the meeting materials posted on the web at:

https://eugene.ompnetwork.org/embed/sessions/252993/city-council-meeting-september-12-2022

Date: 9/12/2022

To: Eugene Mayor/council

From: Rich Locke

Subject: Legal action against citizens, pan handling, Managed services ownership,

Good evening, Mayor, Council, City Manager

**Legal Action against Citizens**

What benefit does filing legal action against citizens by city officials do?

a. It intimidates citizens from voicing concerns about any issue.
b. It minimizes the citizen contribution to any issue.
c. It disrespects citizens that have a differing opinion from city official's
d. It alienates the mayor, council, and staff from constituents.
e. In other words, shut up or else!!!

**Pan Handling, loitering, littering**

- Why does the City of Eugene allow pan handling on our street corners?
- Pan Handling on certain corners turns into a camping spot and garbage piles.
- Pan Handling in most cases is in front of a business
- People are intimidated by people soliciting in person on the streets.
- Street corner Pan handling is a **safety hazard** when doing in it at traffic intersections
- Does condoning this practice embracing the image of Eugene that most citizens want, and our city officials of Eugene want to have?

**Managed Services ownership**

- Can we agree that people that are living on our streets are here for managed services of some kind?
- Why are most of the homeless on the streets around managed service providers?
- Why are the managed services providers not responsible for their customers?
- Why does the city of Eugene, businesses, and residents end up cleaning up after the people and the managed service providers have no responsibility to their local neighbors?
- Why is it that we all must tolerate the homelessness 24/7 and the managed service providers only have to do it during hours of operation?

Rich Locke

President EBA

Covert global climate engineering programs are the single most environmentally destructive assault the human race has ever unleashed against nature and the entire web of life. The list of catastrophic environmental and human health consequences directly connected to the ongoing climate engineering insanity makes these programs mathematically the greatest and most immediate threat we collectively face short of nuclear cataclysm. Climate scientists claim that "solar radiation management" is the final option for cooling down our rapidly warming world, but is that the truth? Are "climate intervention" programs actually mitigating the unfolding planetary meltdown? Or further fueling it overall? How can we expose and halt the global geoengineering omnicide before it is too late?

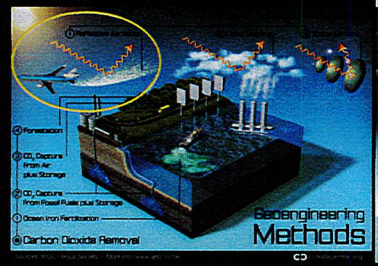
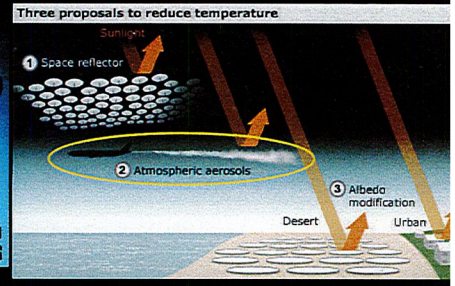
# The global climate engineering Manhattan project

What if there were a monumental environmental threat that you didn't even know was occurri What if it came into use in an insidious way, just as GMO foods have come into our food sup without our knowledge or consent? What if it appeared to be harmless, but it wasn't? And what i were so cleverly woven into our culture that we didn't even see it anymore? What if it were so m terfully stigmatized and wrapped in controversy that if you thought it strange or concerning, you'd scorned or ignored? What if you found out that this issue was already affecting your health and t of people you know and love? What if this threat had the potential to destroy our crops, our trees, soil they are grown in, our water supply, the protective layers of our atmosphere, and whole ecos tems? What if all available data and front-line facts made clear that this issue was putting the en web of life in the balance? Global climate engineering / intervention programs are mathematica the greatest and most immediate threat we collectively face short of nuclear cataclysm.

*Rotterdam, Netherlands. Photo credit: Martin van Agteren*

How many of us have ever known tr natural weather? Global climate int vention / geoengineering / solar radiati management programs are not just an o landish and unrealistic "proposal", clim intervention operations have been ployed and steadily expanded for over years with catastrophic consequences. addition to the stated purpose of "mitig ing" global warming (which all availa data confirms geoengineering is maki worse overall, not better), there are ma additional objectives being carried out our skies under the guise of geoengine ing. The electrically conductive hea metal particulates (that are being spraye help to enhance over the horizon rad radio frequency transmissions, and EMP (electromagnetic pulse) offense and defense weapon The military industrial complex, of course, never considers the immense consequences of th atmospheric activities and experiments.





Mainstream science sources assist with the cover-up of geoengineering operations by showi preposterous and unrealistic forms of geoengineering (like space mirrors) alongside the very for

# What is climate engineering?
## (AKA geoengineering, AKA "chemtrails")

*Nyon, Switzerland. Photo credit: Romain Silvestre*

*Redding, California. Photo credit: Joyyde Wigington*

There are a number of science terms that refer to various aspects and stated agendas relating to climate engineering operations. Utilizing the science terms that are applicable to this issue are imperative in order to garner and retain credibility. "Chemtrails" is a non-science term and thus is not helpful in the effort to raise awareness and credibility on the critical climate engineering subject.

**Geoengineering:**
Climate engineering, also referred to as geoengineering or climate intervention, is the deliberate and large-scale intervention in the Earth's climatic system with the aim of limiting adverse climate change. *(Wikipedia)*

**Solar radiation management:**
(SRM) projects are a type of climate engineering which seek to reflect sunlight and thus reduce global warming. Proposed examples include the creation of stratospheric sulfate aerosols. *(Wikipedia)*

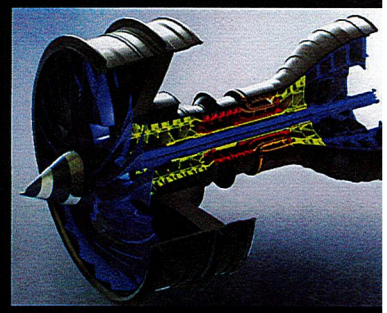
**Marine cloud brightening:**
is a proposed solar radiation management climate engineering technique that would make clouds brighter, reflecting a small fraction of incoming sunlight back into space in order to offset anthropogenic global warming. Along with stratospheric aerosol injection, it is one of the two solar radiation management methods that may most feasibly have a substantial climate impact. *(Wikipedia)*

**Stratospheric aerosol injection:**
Stratospheric sulfate aerosols to create a global dimming effect...to limit the effect and impact of climate change due to rising levels of greenhouse gases.[2] Delivery of precursor sulfide gases such as sulfuric acid,[3] hydrogen sulfide ($H_2S$) or sulfur dioxide ($SO_2$) by... aircraft[4]. *(Wikipedia)*

# Condensation trails?
# Or jet sprayed aerosol dispersions?

Official sources tell the public they are only seeing "condensation trails" in our skies, but is the truth? The alarming reality is this, the "condensation trail" official false narrative is perhaps greatest deception ever perpetrated on populations of the world by those in power in order to eff tively hide the clandestine climate engineering operations in plain sight.

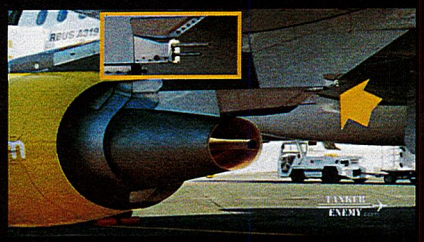
An actual "condensation trail" could never be turned "on and off" as is seen in the photograp the right. Again, the expressed goal of the climate engineers and their "solar radiation management" technofix for global warming is to intentionally spray millions of tons of light scattering electrically conductive (and highly toxic) particles (like aluminum) into the atmosphere. Jet fuel additives and sprayed payload dispersions are both a part of the ongoing SRM atmospheric aerosol saturation effort. In regard to the patently false "condensation trail" official narrative, the following facts must be considered: All commercial passenger jets, and all military tanker jets, are equipped with a "high bypass turbofan" jet engine. This engine is, in essence, a jet powered fan that is designed for maximum fuel efficiency. Over 80% of the air that passes through a "high bypass turbofan" jet engine is NON COMBUSTED (again, it is a jet powered fan). Thus, by its very design, the "high bypass turbofan" jet engine is nearly incapable of producing any true "condensation trail" except under the most rare and extreme of circumstances.

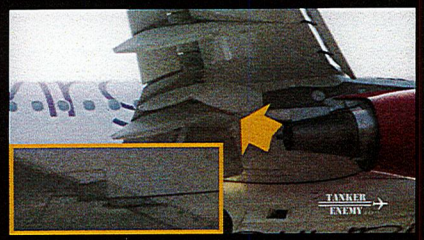


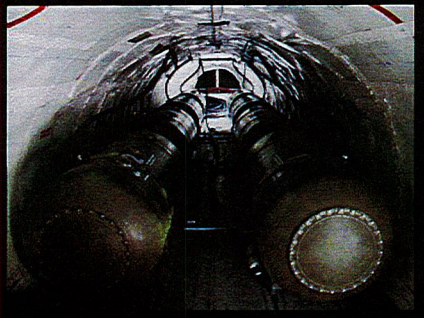
*Cutaway image of a modern "high bypass turbofan" jet en*

# Aircraft spraying nozzles hidden in plain sight

How would particulate spraying be executed from commercial and military jet aircraft in a manner that would be covert? In a manner that would fortify the official "condensation trails" false narrative? By adding retrofit spray nozzles on the aircraft pylon just above the jet thrust stream, aimed straight into this stream. Thus, the "condensation trail" false narrative is formed and fortified.







If you think there are only passengers in all commercial passenger jet aircraft, think again. Available data, film footage, and aircraft tracking programs prove that even passenger carrying commercial jet aircraft are being used for aerosol spraying into the atmosphere. Data does not indicate any direct involvement of commercial carrier pilots or personnel. The atmospheric aerosol spraying programs are centrally controlled, coordinated, and operated (documents revealed later in this booklet will

*Antioch, Tennessee. Photo credit: Brent Rodriguez*

Over 70 years ago the United States government and other global powers made the decision to ploy global climate engineering programs without the knowledge or consent of their citizens. Why would governments around the world participate in covert climate engineering progra Perhaps the more appropriate question would be this, why wouldn't global power centers engag patented climate modification operations for their own purposes and agendas? The answer is, t would, and they have, for over 70 years. Below are two examples of over 150 climate intervent related patents. http://www.geoengineeringwatch.org/links-to-geoengineering-patents/

**Stratospheric Welsbach seeding for reduction of global warming**
**US 5003186 A**
ABSTRACT
"A method is described for reducing atmospheric or global warming resulting from the presence of heat-trapping gases the atmosphere, i.e., from the greenhouse effect. Such gases are relatively transparent to sunshine, but absorb strongly t long-wavelength infrared radiation released by the earth. The method incudes the step of seeding (with jet aircraft dispersior the layer of heat-trapping gases in the atmosphere with particles of materials characterized by wavelength-dependent emiss ity. Such materials include Welsbach materials and the oxides of metals which have high emissivity (and thus low reflectivitie in the visible and 8-12 micron infrared wavelength regions."

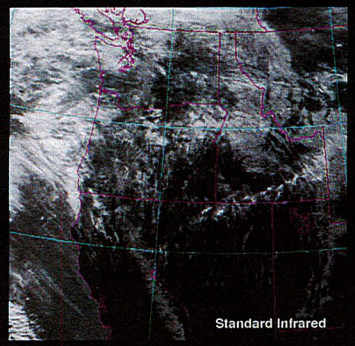
**Weather modification method**
**US 3613992 A**
"The method of causing ice crystal formation in a mass of water droplets having a temperature less than +6 C., which comprises introducing into said mass of particles a finely divided solid substance having a high solubility in water and a large endothermic heat of solution and selected from the group consisting of urea, potassium nitrate, potassium nitrite and ammonium nitrate".

The next patent example is for "chemical ice nucleation", the cess of chemically nucleating precipitation that should have fa as rain, into snow. This is a major tool for the climate engine and one that they utilize constantly in order to temporarily ( toxically) create a short term surface cool-down. This is a prin factor with the rapidly increasing "weather whiplash" tempera swings, the now common above freezing temperature snow events, and the rapidly increasing extreme hail events.

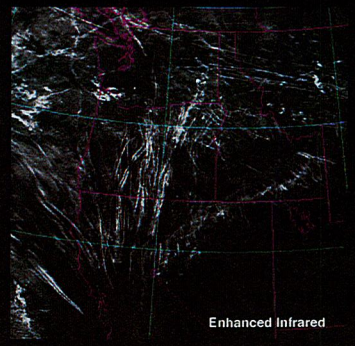
## "China's Weather Manipulation Brings Crippling Snowstorm to Beijing"
### (a headline from Popular Science Magazine)

In The People's Republic of China, it's no secret that the Party controls just about everything. But as Beijing suffers through its second major snowstorm this season, residents are growing weary of their leadership's control-freak tendencies. A

If climate engineering / geoengineering sprayed particulate trails are so prevalent in the upper troposphere, why don't they show up clearly on satellite images? Because the vast majority of satellite images from official sources are almost always filtered in order to mask the blatantly visible atmospheric spraying operations.



Standard Infrared



Enhanced Infrared

Above are two versions of the same satellite image. The image on the left is in essence a filtered image as only standard infrared imagery was used. The image on the right (enhanced infrared) clearly reveals expansive climate engineering operations over the western US.

NASA tells us that the extremely long trails shown in the satellite images below are just "ship tracks", but does this official narrative hold up to an examination of the facts?

NASA's so called "ship tracks" (over oceans) frequently do not conform to established shipping lanes, and are far too uniform over far too great a distance to be "ship tracks". The massive zones

## CHAPTER 5

### FEDERAL ACTIVITIES IN WEATHER MODIFICATION

(By Robert E. Morrison, Specialist in Earth Sciences, Science Policy Research Division, Congressional Research Service)

#### OVERVIEW OF FEDERAL ACTIVITIES

The Federal Government has been involved for over 30 years in a number of aspects of weather modification, through activities of both the Congress and the executive branch. Since 1947, weather modification bills pertaining to research support, operations, policy studies, regulations, liabilities, activity reporting, establishment of panels and committees, and international concerns have been introduced in the Congress. There have been hearings on many of these proposed measures, and oversight hearings have also been conducted on pertinent ongoing programs. A total of six public laws specifically on weather modification have been enacted since 1953, while others have included provisions which in some way are relevant to weather modification. Resolutions dealing with the use of weather modification technology as a weapon by U.S. military forces and promotion of a U.N. treaty prohibiting such activities have been introduced in both houses of the Congress, and one such resolution was passed by the Senate.

Federal legislation has dealt principally with three aspects of weather modification—research program authorization and direction, collection and reporting of weather modification activities, and the commissioning of major studies on recommended Federal policy and the status of technology. In addition to providing direction through authorizing legislation, the Congress has initiated one major Federal program through an appropriations bill write-in, and this program has since regularly received support through additional appropriations beyond its recommended OMB funding level.

Identifiable Federal research and operational weather modification programs can be traced from at least the period of World War II; however, the research programs of most agencies other than the Defense Department were not begun until the 1950's and 1960's. While

Do official government documents exist which would implicate government involvement in global weather modification / climate intervention programs? Yes, the document excerpt to the left was taken from a 750 page US Senate Report released in 1978. This document is only one of many available historical government reports which specifically address the ongoing national weather modification / climate modification programs. How much longer can the undeniable climate engineering atrocities be kept from public consciousness?

PDF file for full document here http://www.geoengineeringwatch.org/massive-us-senate-document-on-national-and-global-weather-modification/

Yet more damning excerpts from the 750 page US Senate / Federal Weather modification document are below:

CHAPTER 10

INTERNATIONAL ASPECTS OF WEATHER MODIFICATION

(By Lois McHugh, Foreign Affairs Analyst, Foreign Affairs and National Defense Division Congressional Research Service)

INTRODUCTION

Recent years have seen increased international awareness of the potential benefits and possible risks of weather modification technology and increased international efforts to control such activities. The major efforts of the international community in this area are to encourage and maintain the high level of cooperation which currently exists in weather reporting and research and to insure that man's new abilities will be used for peaceful purposes rather than as weapons of war. This two sided approach is evident in the activities of the United States which has strongly encouraged and supported cooperative efforts to gain knowledge of the weather and at the same time has endeavored to restrict the use of this knowledge to peaceful purposes through the adoption of international agreements.

Weather research and reporting has long been one of the areas having the closest international cooperation. Because of the global nature of weather systems, making the prediction of weather in one area dependent on reported weather in other parts of the world, cooperation and exchange of information and techniques of weather research and reporting are necessities. This cooperation transcends ideological differences and hostilities.

International cooperation in the exchange of ideas on and methods of weather modification has also been extensive. Many well attended

CHAPTER 12

ECONOMIC ASPECTS OF WEATHER MODIFICATION

(By Warren Viessman, Jr., Senior Specialist in Engineering and Public Works, Congressional Research Service)

INTRODUCTION

Several weather modification processes have economic implications of great significance. Many sectors of agriculture, industry, and commerce may reap benefits or sustain losses as a result of shifts from historic weather trends. The difficulty is that until the technology is more highly developed and control systems perfected to permit reliable predictions of outcomes, attempts to quantify benefits and costs will, in many cases, be more academic than practical.

The Commission also recommended that greater use be made of statisticians in analyzing Government-sponsored research in weather modification and that statistics be given greater emphasis in related academic programs for meteorologists. In addition, there is a need to assess more fully the social and economic implications of weather modification experimentation, and all agencies engaged in weather modification attempts should give attention to the social implications.

With regard to the legal system, the Commission recommended that the Federal Government be empowered by appropriate legislation to: (a) delay or halt all activities—public or private—in actual or potential conflict with weather and climate modification programs of the Federal Government; (b) immunize Federal agents, grantees, and contractors engaged in weather and climate modification activities from State and local government interference; and (c) provide to Federal grantees and contractors indemnification or other protection against liability to the public for damages caused by Federal programs of weather and climate modification.

The yellow highlighted statements on the document above are of particular interest. In summary, this US Senate document calls for the complete cooperation with NORMALLY ADVERSARIAL NATIONS due to cross border ramifications from climate engineering. All major powers are colluding, collaborating and cooperating in regard to the ongoing climate engineering crimes and coverup.

*Nyon, Switzerland. Photo credit: Romain Silvestre*

*Livingston County, Michigan. Photo credit: Lyn Connolly*

Any form of climate intervention must also be considered a form of weather and biological warfare due to the long list of catastrophic downstream climate consequences and the biosphere contamination that are both directly and indirectly a result of these programs. Such consequences have always been downplayed or completely ignored by the global power centers that push and propagate the ongoing climate engineering assault.

Are there yet more recent government documents that address global weather modification / climate intervention proposals and programs? Yes, there are many such documents, the image to the right is only one example.

Even a 1950s Colliers Magazine article addressed the rapidly expanding climate modification industry, which our government has since taken a position of total denial on.

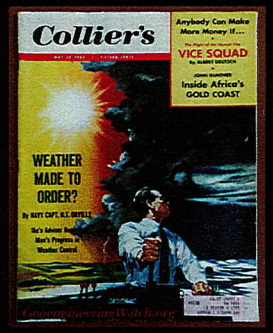
**ENGINEERING THE CLIMATE: RESEARCH NEEDS AND STRATEGIES FOR INTERNATIONAL COORDINATION**

REPORT

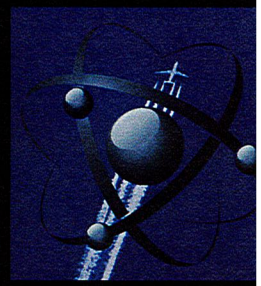
BY

CHAIRMAN BART GORDON
COMMITTEE ON SCIENCE AND TECHNOLOGY
U.S. HOUSE OF REPRESENTATIVES

ONE HUNDRED ELEVENTH CONGRESS
SECOND SESSION
OCTOBER 2010

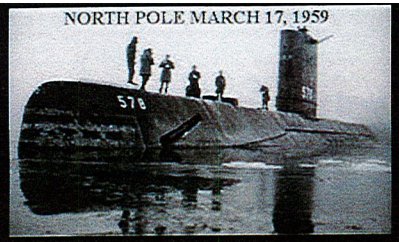


Are scientists willing to deny the climate engineering / solar rad ation management reality on the record? No.

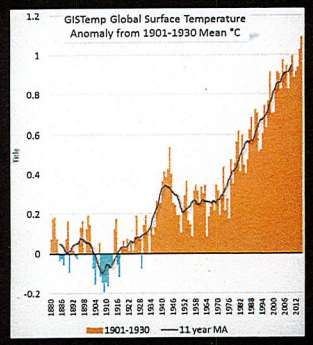


On Friday, October 7th, 2016, GeoengineeringWatch.org and the Legal Alliance to Stop Geoengineering (LASG) carried out a simple survey that involved 1518 climate scientists and experts.

100% of scientists/experts surveyed REFUSED to deny the climate engineering reality on the record. How much longer can the climate engineering atrocities be hidden from the public plain sight? When will climate science community decide to start telling the truth about the ongoi global geoengineering / climate intervention assault?

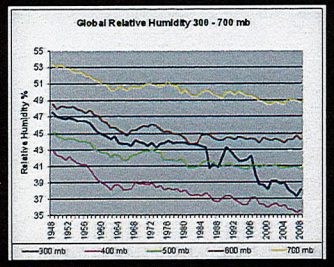


For many decades global power centers (and the many sources of media they control) have effectively fueled the division and confusion of populations in regard to the true extent of damage to the climate system. This historical submarine photo was recovered from the US Navy historical archives. Why is this photo so significant? Because it reveals a US Navy submarine surfaced in OPEN WATER at the North Pole at the hight of the Arctic ice expansion season in 1959. The sea ice at this location at the time of year when this photo was taken should have been two or three meters thick, but there was none.



Even prior to WWII those in power were well aware of the rapidly accelerating warming of the planet due to anthropogenic activities. Since the acceleration of the industrial revolution there has been an ongoing "tug of war" being played out in the climate system. The buildup of greenhouse gases was to some degree counteracted by the build up of sun blocking pollution particles in the atmosphere. By 1945, when the first progressive phase of anthropogenic planetary warming was skyrocketing, the greenhouse gas build up had begun to completely overwhelm the cooling sun blocking effect of atmospheric aerosols (pollution particles).

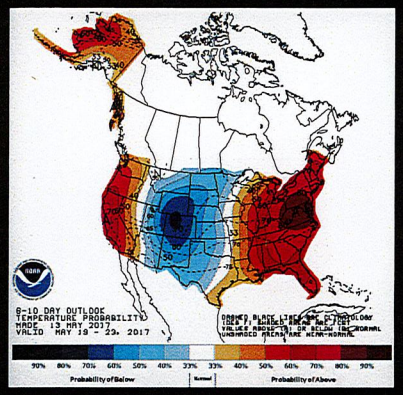
Immediately after the end of WWII, without the knowledge or consent of their populations, a coordinated global climate engineering Manhattan project was deployed by governments around the globe. By spraying additional particles into the atmosphere with aircraft, global powers were able to mask the greenhouse gas buildup for several decades. But we must consider this, at what cost did this temporary reprieve come in regard to the overall web of life?



A primary objective of climate engineering / solar radiation management programs is to blot out the sun. "Global dimming" is the science term that describes the percentage of the sun's direct rays that no longer reach the surface of the Earth as compared to the mid 20th century. Astoundingly, current figures put "global dimming at nearly 30% in many parts of the planet. Blocking the sun has decreased overall evaporation and overall atmospheric relative humidity.

The atmosphere can carry 7% more moisture for every degree in Celcius of warming. The laws of physics make clear that a warming planet must create more overall rain unless there is a factor that is not being publicly disclosed. That factor is the highly toxic covert climate engineering assault. Extreme deluges

The answer to the question of "WHY ENGINEER THE CLIMATE?" is complex as there are great many objectives and agendas being carried out simultaneously. Again, the stated purpose geoengineering / solar radiation management (SRM) programs is mitigation for global warming, b is this really the primary overall objective? The geoengineers have tried to claim that by sprayi the atmosphere with highly reflective light scattering particulates (like aluminum), they can refl enough of the sun's incoming thermal energy to counteract the greenhouse gas buildup and th cool the planet. Is it working? After over 70 years of constantly escalating and expanding clima intervention programs, all available data makes the following conclusion clear, the short term (a highly toxic) climate intervention cool-downs come at the cost of actually fueling the overall lo



term warming of the planet. In summary, clima engineering is making an already dire climate d integration scenario far worse in the long term. T NOAA "forecast" (scheduled) weather map to t left is a glaring example of a recent complete engineered cool-down. Temperature scenarios li the one revealed in this NOAA map are complete unnatural and historically unprecedented. Reco warmth on the East and West coasts with a bullse of chemical ice nucleated record cold in the cent of the country.

The color coded forecast map reflects probabiliti of over 25 degrees above "normal" on both coas with anomalies of over 25 degrees below norm in the center of country. Again, such weather whi lash scenarios are meteorologically unprecedent and are a direct result of climate engineering.

**COVERT GLOBAL GEOENGINEERING PROGRAMS ARE:**

-Trapping more overall heat in the lower atmosphere than is deflected.
-Completely disrupting the global hydrological cycle (the rain cycle).
-Destroying the ozone layer and thus radically increasing lethal UV radiation exposure.
-Contaminating the entire surface of the planet along with the breathable air column.
-Disrupting upper level wind currents and subsequently ocean currents.
-Further fueling unprecedented forest die-offs and CATASTROPHIC FOREST FIRES.
-Contributing to extreme hail and weather events due to chemical ice nucleation dispersions over storm

Who is behind the climate engineering / solar radiation management operations?
All roads lead back to those who print the money, the private bankers that run the "federal reserve". Those who control the money control militaries, and thus countries.

## Government Implements Illegal "Gag Order" On National Weather Service And NOAA Employees

Why aren't government scientists in agencies like The National Weather Service (NWS) and The National Oceanic and Atmospheric Administration (NOAA) speaking out about the ongoing climate engineering operations? US government scientists have no first amendment protection, next, a recent illegal federal gag order has been placed on all NWS and NOAA employees and scientists.
http://www.geoengineeringwatch.org/government-implements-illegal-gag-order-on-national-weather-service-and-noaa/
The excerpt below is from a PEER (Public Employees for Environmental Responsibility) report on the illegal federal gag order.

"This summer, the National Weather Service began requiring a signed confidentiality agreement.... These agreements purport to bind NWSEO representatives from communicating with its members, members of Congress or any other person regarding agency plans and how they are determined. These agreements also do not contain terms allowing reports of actual or impending law or rule violations, gross mismanagement, waste or abuse. The National Weather Service, NOAA and Commerce are presently implementing and enforcing nondisclosure agreements which violate the law."

Here is a headline and article excerpt from Canada **"How are scientists being muzzled?"**

WEATHER SERVICE EMPLOYEES TETHERED BY ILLEGAL GAG ORDERS

Special Counsel Asked to Reverse Recent Raft of Blanket Nondisclosure Policies

Posted on Oct 08, 2015 | Tags: NOAA

Washington, DC – National Weather Service employees face growing restrictions on their ability to disclose information about the inner workings of their agency, according to a complaint filed today by the National Weather Service Employees Organization (NWSEO) and Public Employees for Environmental Responsibility (PEER). They contend these gag orders are illegal and are pressing U.S. Special Counsel Carolyn Lerner to lift these nondisclosure policies and take action against responsible officials.

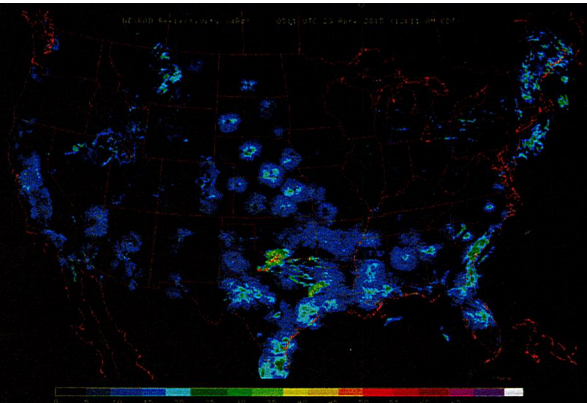
"Federal scientists have been restricted from publicly talking about their research...."

"In 2006, the Harper government introduced strict procedures around how its scientists are allowed to speak about their research to the media."

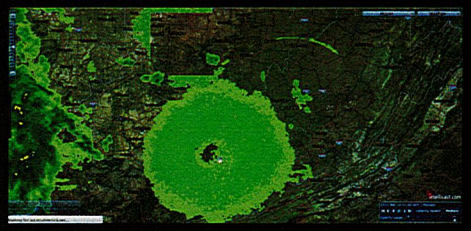
"In the past, journalists were generally able to contact scientists directly for interviews, but after these new directives they had to go through government communications officers."

"And scientists had to get pre-approval from their minister's office before speaking to members of national or international media, a process that can involve drafting potential questions and answers, which are then scrutinized by a team before the green light is given."

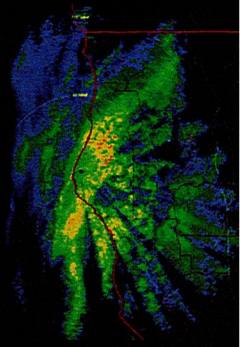
The same process of total science censorship is occurring in countless other countries .



*Radio frequency / microwave transmitters are scattered throughout the country and throughout the world.*



*Most mainstream media radar images are highly filtered so that the public does not see the blatant radio frequency / microwave precipitation manipulation like that shown on the image above.*



*The precipitation manipulating radio frequ microwave transmission signal above is fr transmitter site south west of Eureka, Calif*

Are there other uns dangers associated v the ongoing covert mate intervention grams? Yes. Massiv powerful (and dan ous) radio freque transmissions are use manipulate the electri ly conductive Jet airc sprayed nano partic This, in turn, manipul air masses and weath

Again, why would governments wish to engineer the global climate system? And again, the m appropriate question is this, why wouldn't completely corrupt and criminalized governments w to engage in patented climate engineering operations to serve their own purposes and agendas?

# Climate modification and microwave transmissions

Populations are blindly accepting and ignoring the dangerous radio frequency / microwave transmission towers that are increasingly being constructed throughout our country (and the world). If you thought transmission towers were only for cell phone signal repeating, this is not the case.

*Radio frequency / microwave transmission towers in Redding, California. Photo credit: Joyyde Wigington*

*The massively powerful HAARP ionosphere heater transmission facility in Alaska.*

*Sea based X-band radio frequency / microwave transmission platform.*

*SBX transmission platform interior transmitter.*

*This NASA satellite image taken off the west coast of Africa reveals extensive microwave transmission manipulation.*

*This NASA satellite image clearly reveals many overlapping radio frequency / microwave transmissions in aerosolized cloud formations.*

The willful spraying of highly toxic climate engineering particles into Earth's atmosphere with aircraft is inflicting unimaginable damage to the entire web of life (in addition to the climate system). Aluminum and barium are primary element named in climate engineering patents.

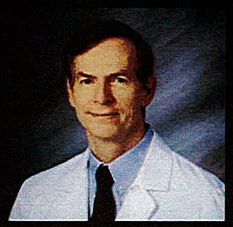
# Sounding The Alarm



Are any top medical professionals speaking out about the highly toxic heavy metal climate engineering fallout and the devastating effects it is having on human health? Yes. Though the majority of the medical / industrial complex community has not yet been willing to openly address the critical climate engineering issue on the record, one renowned medical practitioner has shown exceptional courage by sounding a dire alarm over geoengineering, Dr. Russell Blaylock. The health dangers posed by the ongoing illegal global geoengineering programs are immense and worsening rapidly. Russell L. Blaylock, M.D. is an internationally recognized board certified neurosurgeon and a recipient of the Integrity In Science award granted by the Weston A. Price Foundation. Dr. Blaylock also serves on the editorial staffs of the Journal of the American Nutraceutical Associates, Surgical Neurology International, and the Journal of American Physicians and Surgeons.

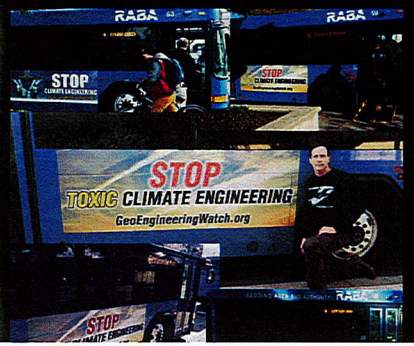
"My major concern is that there is evidence that they are spraying tons of nanosized aluminum compounds. It has been demonstrated in the scientific and medical literature that nanosized particles are infinitely more reactive and induce intense inflammation in a number of tissues. Of special concern is the effect of these nanoparticles on the brain and spinal cord, as a growing list of neurodegenerative diseases, including Alzheimer's dementia, Parkinson's disease and Lou Gehrig's disease (ALS) are strongly related to exposure to environmental aluminum.

Nanoparticles of aluminum are not only infinitely more inflammatory, they also easily penetrate the brain by a number of routes, including the blood and olfactory nerves (the smell nerves in the nose). Studies have shown that these particles pass along the olfactory neural tracts, which connect directly to the area of the brain that is not only most affected by Alzheimer's disease, but also the earliest affected in the course of the disease. It also has the highest level of brain aluminum in Alzheimer's cases.

The intranasal route of exposure makes spraying of massive amounts of nanoaluminum into the skies especially hazardous, as it will be inhaled by people of all ages, including babies and small children for many hours. We know that older people have the greatest reaction to this airborne aluminum. Because of the nanosizing of the aluminum particles being used, home filtering system will not remove the aluminum, thus prolonging exposure, even indoors.

In addition to inhaling nanoaluminum, such spraying will saturate the ground, water and vegetation with high levels of aluminum. Normally, aluminum is poorly absorbed from the GI tract, but nanoaluminum is absorbed in much higher amounts. This absorbed aluminum has been shown to be distributed to a number of organs and tissues including the brain and spinal cord. Inhaling this environmentally suspended nanoaluminum will also produce tremendous inflammatory reaction within the lungs, which will pose a significant hazard to children and adults with asthma and pulmonary diseases.

I pray that the pilots who are spraying this dangerous substance fully understand that they are destroying the life and health of their families as well. This is also true of our political officials. Once the soil, plants and water sources are heavily contaminated there will be no way to reverse the damage that has been done. Steps need to be taken now to prevent an impending health disaster of enormous proportions if this project is not stopped immediately. Otherwise we will see an explosive increase in neurodegenerative diseases occurring in adults and the elderly in unprecedented rates as well as neurodevelopmental disorders in our children. We are already seeing a dramatic increase in these neurological disorders and it is occurring in younger people than ever before."

# How can we stop the ongoing climate engineering / weather warfare assault?


Of all the challenges faced by the human race and life on Earth, the global geoengineering assau mathematically the most dire and immediate (short of nuclear cataclysm). The effort to fully exp and subsequently halt climate engineering is the great imperative of our time. Once we reach a c cal mass of awareness, and the geoengineering atrocities are fully visible to all, the rest of the wh in the battle will begin to turn on their own as a significant percentage of the population underst they are facing a fight for life. As those in the US military (and their families) realize they are ing used against their own citizens, the current paradigm can be shifted. Awareness raising li instructions, and free downloadable GeoengineeringWatch.org informational flyers are available the home page of our site.. We must prevail in the battle to expose and halt climate engineering all is lost. We will sink or swim together, all are needed in the critical effort to sound the alarm. W will you do? As the unfolding biosphere and societal collapse continues to accelerate, what wil your part in this all important effort to salvage what is yet left of Earth's life support systems? must all make our voices heard while we can still make a difference, time is not on our side.
